Speaking Topics

Let's Talk Hormones

Many traditional doctors offer little or no option for hot flashes, low libido, and night sweats. Bio-Identical hormones are derived from natural plant sources and are formulated to be biologically identical to the human forms of estradiol and testosterone. A balanced woman experiences weight loss and an increased desire for sex, to keep relationships hot, not the flashes.

Intimate Rejuvenation

Over 50% of women experience urinary incontinence at some point in life. The Lady Lyft is proven treatment for bladder control, enhanced pleasure, and rejuvenated tissue. PRP (Platelet-Rich Plasma) is a natural, reparative solution, prepared from one's own blood, activating new tissue growth and regeneration for youthful, healthy tissue and bladder support. PRP is a non-invasive, effective option to vaginal laser rejuvenation.

Live Long and Fabulous

With medical advances, people are living longer than ever. Everyone deserves to feel fabulous throughout all of their years. There are secrets to aging gracefully that keep us vibrant. From osteoporosis to alzheimer's and dementia, to intimate health and vitality, integrative techniques and services are now available to maintain and protect the organs as we age.

Bio

Dr. Gail Jackson is a leading specialist in holistic, bio-identical hormone balancing for women, eliminating the effects of menopause. She is Board Certified by the American Board of Obstetrics and Gynecology and is Emeritus at Cedars-Sinai Medical Center, in Los Angeles, CA. She has done extensive research in the area of bio-identical hormone balancing and holistic medicine. Her phenomenal success in hormone balancing has allowed her to transition her practice and focus exclusively on keeping women fabulous beginning at 45, through all the years of life.
